Задание 6 № 234

Установите соответствие между заголовками 1–8 и текстами A–G. Запишите свои ответы в таблицу. Используйте каждую цифру только один раз. В задании есть один лишний заголовок.

1. Not Just Fun
2. Running For Heart and Mind
3. United By The Game
4. I Want To Be A Coach
5. Team Work in Sport and Life
6. Next Year We Win
7. Learning From Father
8. School between Practices

A. I believe playing sports is more than an activity to fill your day, it can teach important life lessons. When I was a child, my dad spent a lot of time teaching me how to play different sports. He told me that if I can succeed in sports, I can succeed at anything in life. He used to say, ‘It’s not about how good you become. It’s about working hard to get where you want to be.’

B. I like bicycles. Group rides help me to get new skills and make new friends. I try to apply the tactics of group riding to team work in the real world. In the perfect group ride, each rider takes a turn leading the pack, while the others enjoy the benefits of drafting. I think this way of working is a great method for approaching a group task anywhere.

C. I believe in the power of running. Running should not be a battle for your body but rather a rest for your mind. I felt this last fall, when I was running in the park. Suddenly I felt as if I could have run forever, as if I could use running as a source of therapy for my body. Running allows the body to release different types of stress and even change our understanding of life.

D. My father coached basketball every day of his life, and I was right there with him in the gym watching him work his magic. Basketball appears entertaining and exciting. But the path to success is not simple. My father always told me, ‘Nothing is free.’ I took this advice and ran with it. I truly believe that only practice and determination lead to success.

E. Baseball is so much more than a sport. One of the powers of baseball is that it brings people together. It unites fans of all ages, genders, and nationalities. No matter who you are, you can be a baseball fan. My mom and I have one unspoken rule: no matter what has been going on before, no fighting at the game.

F. I believe that you must always be loyal to the sport teams you support. The teams I follow in the United States generally lose many more than they win. The

start of each season brings dreams of victory in baseball, basketball or football, dreams that fade away soon. But then there is always next year. It will be our year for sure.

G. I was determined to join the swim team. I knew I would get my strengths and learn my weaknesses there. Waking up early for 6:30 a.m. practices is what swim team is all about, as it helps us get into state. On a long school day you think about the practice in the pool after school. You want to hear the crowd cheering you, telling you that you have to do more than your best.

Задание 19 № 447

Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 1.5 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 1.5 minutes to read it.

... You don't see many birds in winter. Most have left your area. Those that stay are not as active. Activity uses energy that is needed to keep warm. The worst problems for

birds in winter are getting enough heat and holding on to the heat once it is made. These are problems for all birds. But it is especially true for very small ones. They cannot find enough food. The weather stays so cold for so long that they cannot eat enough to keep alive. But birds have many ways of fighting the cold.

You shiver to keep warm. The heat that you make is made mostly in your muscles. The muscles make more heat when they are active. So one way of keeping warm is to move about, use your muscles. Another way is to shiver. When your body needs heat, the muscles tighten and loosen quickly. They become active. Just as you shiver to keep warm, so do birds.

1. A shop that inspired writers
2. Country's brave defenders
3. A truly international place
4. Governesses of rich children
5. Birth of a popular sport
6. Textile business links
7. A nice-sounding building
8. The initial steps of commerce

A. Moscow has always been a multicultural city. If we look back at its history, we will see that there were several foreign communities living in Moscow on a permanent basis. We all know about German people inhabiting the banks of the Yauza river, where little Peter, the future tsar of all Russia, ran around, made friends and got his first ideas of learning about ships and fleets. But what do we know about the British community of Moscow? Did it even exist?

B. The first ties between Russia and Britain were formed in the middle of the 16th century in the time of Ivan the Terrible. It was then that some wealthy British merchants founded the Muscovy Company which held a monopoly on trade between Britain and Russia until 1698. The building of its Moscow headquarters was granted to the company by the tsar in 1556 and can be still visited at 4, Varvarka Street, known to us now as The Old English Court.

C. Beginning from the time of Peter the Great, several talented British military men moved to Russia. Many of them served as army generals and navy admirals, defending Russian borders in different wars and battles. Among the most famous ones were Field Marshall James Bruce, Field Marshall Barclay de Tolly and Admiral Thomas Mackenzie, all of them of Scottish origin.

D. In the 18th century, British industrialists made themselves known in Russia. One of the most outstanding figures was Robert McGill, who lived in Moscow and served as an intermediary between Lancashire mill engineers and the Russian cotton industry, and built over 150 mills (cotton factories) in Russia. Robert McGill had a house in Spiridonovka Street and together with his wife Jane was a prominent member of the British community in Moscow.

E. If you talk to Moscow concert musicians who were active between the 1960s and the 1990s, they will tell you of the fantastic acoustics of the "Melodiya" recording studio at 8, Voznesensky Lane, which they lovingly called 'kirche', mistakenly thinking it was a German church. This

building, designed in the English neo-gothic architectural style, was in fact built in 1885 by Robert McGill and is St. Andrew's Anglican Church, which was used as a recording studio in Soviet times.

F. Another spectacular example of British architecture in Moscow is the old building of TsUM next to the Bolshoy and Maly theatres. Built in the early 1900s, it was back then the biggest department store in Moscow. It was owned by Scottish merchants Andrew Muir and Archie Mirrieles. Mayakovsky mentions Muir&Mirrieles in several of his poems, while Chekhov named his dogs after its two owners.

G. In 1887, two other cotton industrialists from Lancashire, Clement and Harry Charnock, moved to work at a cotton factory in Orekhovo-Zuevo, near Moscow. They were both great football fans and decided to introduce this game to the workers of the factory. This resulted in the first professional football team in Russia which after the Revolution became the core of Moscow Dynamo team.

Surviving in a Desert

A desert is defined as a place that gets less than 250 mm of rain each year. It differs sharply from the climate of a rain forest, (A) _____.

Arid desert lands cover about one third of the earth's surface. Most deserts are covered with sand, (B) _____. There are also usually a lot of rocky areas. This combination of sand and rock means that the soil is not very fertile.

(C) _____, some living things are able to do well in this setting. Many plants have changed and developed in ways (D) _____. These changes have become apparent in a number of ways. Some plants are able to grow very quickly (E) _____. They turn green and produce flowers within just a few days. Other desert plants simply stop growing in very dry weather. They appear to be dead, but when the rain returns, they come back to life and begin growing again.

Desert animals have also developed many characteristics that help them to survive in arid environment. Camels can go for a very long time without drinking. Other animals, such as snakes and rats, find cool places to sleep during the day and come out only at night. The extremely long ears of desert rabbits help them (F) _____. Changes like these have allowed some animals and plants to grow and develop successfully in a very challenging ecological system: the desert.

There are countless books in the world, and whoever you are, whatever you're feeling, there is definitely a book out there, just waiting for you to discover it.

1. which is often in the form of hills called sand dunes
2. whenever it rains
3. to find water as far as metres away
4. which can receive up to mm of rain annually
5. to better distribute their body heat and stay cool
6. even though the desert environment is very dry and hot
7. that help them to live in the desert

Doctor Who

'Doctor Who' is a British science-fiction TV series that follows the adventures of a time-traveling alien, called the Doctor, and his human companion, as they travel through time and space in a spaceship, called the TARDIS (Time and Relative Dimension in Space), and courageously save the world time and time again.

'Doctor Who' first aired on BBC on 23 November, 1963 and was one of the first science-fiction stories to appear on screen: 3 years before 'Star Trek' and 14 years before the 'Star Wars' franchise. In 1989, due to falling popularity, the show was suspended. But 16 years later, in 2005, it was brought back to the screen with a whole new cast of actors and has been ongoing ever since. It is considered to be the longest running sci-fi show in the world, having celebrated its 50th anniversary in 2013.

But how has 'Doctor Who' managed to survive for this long? What sets it apart from other amazing shows that are now over? What makes 'Doctor Who' really unique, is that it does not have to rely on any particular actor to continue. When the Doctor is close to death, he is able to start a biological process within himself, called regeneration, that changes every single cell in his body, while still leaving his mind intact. Essentially, he becomes a different person: new looks, new personality, new everything. But one thing that never changes is his genius, and his sense of humor. This means, that every four years or so, when the actors playing the Doctor decide to move on to different projects and leave the show, the producers can find a new actor to take on the iconic role. So far twelve actors have played the Doctor.

Another reason the show has been running for so long is that there is no main storyline, it is very much episodic, each episode telling a story of a separate adventure. So as long as the writers of the show keep coming up with new planets for the Doctor and his companion to visit, and new alien villains for them to defeat, the show can continue forever.

'Doctor Who' has an unbelievably huge fan base all over the world, so big in fact, that the 50th anniversary episode aired in 94 countries simultaneously, earning it a Guinness World Record. There is also a large amount of music, inspired by 'Doctor Who', and since the series's renewal, a music genre called 'Trock' ('Time Lord Rock') has appeared. The most famous 'Trock' band is 'Chameleon Circuit'. They produce music exclusively about 'Doctor Who', and so far have released two albums.

Soon after 'Doctor Who's' appearance in 1963, novels surrounding the series started to appear. The first ever novelization came out on 12 November, 1964, almost exactly a year after the first episode came out. Since then over 150 novelizations and 200 spin-off books have been published, including some written by Neil Gaiman.

'Doctor Who' has been an important part of popular culture for over half a century now. The show is limitless, filled with possibility: you can go to Victorian London, or to Pompeii, or to the 51st century. It can be any genre: comedy, horror, fantasy, drama, sometimes all of them at the same time. It's clever, and funny, and sad, and makes you think. The plots are well written, and sometimes you feel like you're twisting your brain into a knot, trying to figure out the paradoxes. But most importantly it's kind-hearted and beautiful. No doubt 'Doctor Who' will remain a fan-favorite for many years to come.

This text deals with ...

1. City attractions.
2. A London cinema.
3. A London theatre.
4. A London street.
5. Nature sights.
6. A London museum.

A. The Lake District, in northwest England, is a small area, but extremely beautiful, with the varied delights of soft hills and woodland and the panoramas of the great lakes. The Lake District is more often visited, both by day tourists and holidaymakers, than any other region of outstanding natural beauty in the British Isles.

B. England's most ancient northern city lies on the River Ouse in the centre of the Vale of York between the Yorkshire Dales and the North York Moors. It was once the principal town of Yorkshire, and it remains the seat of the Archbishop of York. A child-friendly city, its Viking, Castle and Railway museums have plenty to engage young people as well as adults.

C. Along the north part of Trafalgar Square is the famous National Gallery. Founded in 1824, the gallery has since grown into one of the most outstanding and

comprehensive collections in the world, with a list of masters ranging from Leonardo da Vinci and Rembrandt to El Greco and Van Gogh.

D. The London Coliseum famous for its richly decorated interiors was used for variety shows, musical comedies, and stage plays for many years. In 1974 its name was changed to the English National Opera. Today it is used primarily for opera as well as being the London home of the English National Ballet. When not on tour they perform regular seasons throughout the year.

E. The Mall is London's impressive ceremonial way, a broad tree-lined avenue. The spectacular parade takes place here each June to celebrate the official Birthday of the Sovereign. Queen Elizabeth II rides down the avenue in a horse-drawn carriage. Over 1,000 officers and men are on parade, together with two hundred horses; over two hundred musicians march and play as one.
